Section 1 Special Education Services

What Does Special Education Mean?

Special education means specially designed instruction and related services adapted as appropriate to the needs of an eligible student with a disability. Special education is provided at no cost to the parent to meet the unique needs of a child with a disability.

Students Who May Benefit

A student verified as having autism, behavior disorders, deaf-blindness, developmental delay, hearing impairments, mental handicaps, multiple disabilities, orthopedic impairments, other health impairments, specific learning disabilities, speech-language impairments, traumatic brain injury or visual impairments, who because of these impairments need special education and related services.

How are Students With Disabilities Identified?

Referrals are made by teachers or parents to a Student Assistance Team. If the student assistance team or comparable problem solving team feels that all viable alternatives have been explored, a referral for multidisciplinary evaluation is completed. An evaluation is conducted to assist in the determination of whether a student has a disability and the nature and extent of the special education and related services the student needs. The evaluation is conducted only with written consent of a parent or guardian. A multidisciplinary evaluation team (MDT) will then meet to determine whether the student is eligible for special education.

Independent Evaluation

If a parent disagrees with an evaluation completed by the school district, the parent has a right to request an independent educational evaluation at public expense. Parents should direct inquiries to school officials to determine if the school district will arrange for further evaluation at public expense. If school district officials feel the original evaluation was appropriate and the parents disagree, a due process hearing may be initiated. If it is determined that the original evaluation was appropriate, parents still have the right to an independent educational evaluation at their own expense.

Reevaluation

Students identified for special education will be reevaluated at least every three (3) years by the IEP team. The IEP team will review existing evaluation data on the student and will identify what additional data, if any, are needed. The school district will obtain parental consent prior to conducting any reevaluation of a student with a disability.

Individual Education Program (IEP)

Upon a student being verified as having a disability, a conference is held with parents. At the conference, an Individualized Education Program (IEP) will be developed specifying programs and services which will be provided by the schools. Parent consent will be obtained prior to a student being placed for the first time in a program providing special education and related services or early intervention services to infant and toddlers. Once in place, the IEP is reviewed on an annual basis, or more frequently as needed. Parents are given a copy of the IEP.

Special Education Placement

The student's placement in a special education program is dependent on the student's educational needs as outlined in the Individual Education Program (IEP). To the maximum extent appropriate, students with disabilities are educated with students who are not disabled. Special classes, separate schooling, or other removal of children with disabilities from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. Determination of a student's educational placement will be made by the IEP team.

Written notice shall be given to parents a reasonable time before the school district: 1. Proposes to initiate or change the identification, evaluation, verification or educational placement of a child or the provision of a free appropriate public education; or 2. Refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child.

More Information

Anyone interested in obtaining a copy of the District's special education policy, the Parental Rights in Special Education brochure, or a copy of the Nebraska Department of Education Rule 51 (special education regulations and complaint procedures) or Rule 55 (special education appeal procedures) may contact the Superintendent. A notice of parental rights, Rules 51 and 55 and more information about special education are also available at the Nebraska Department of Education's website: http://www.nde.state.ne.us/SPED/sped.html.

Section 2 Students with Disabilities: Section 504

Accommodations and related services are made available to students with disabilities under Section 504 of the Rehabilitation Act of 1973. Under Section 504, parents have the following rights:

1. Have your child take part in, and receive benefits from, public education programs without discrimination because of your child's disability.
2. Have the school district advise you of your rights under federal law.
3. Receive notice with respect to identification, evaluation or placement of your child.
4. Have your child receive a free appropriate public education. This includes the right to be educated with non-disabled students to the maximum extent appropriate. It also includes the right to have the school district make reasonable accommodations to allow your child an equal opportunity to participate in school and school-related activities.
5. Have your child receive services and be educated in facilities which are comparable to those provided to students without disabilities.
6. Have your child receive an individualized evaluation and receive special education and related services if your child is found eligible under Section 504.
7. Have evaluation, eligibility, educational and placement decisions made based on a variety of information sources and by persons who know your child and who are knowledgeable about the evaluation data and placement options.
8. Have transportation provided to and from an alternative placement setting at no greater cost to you than would be incurred if your child were placed in a program operated by the school district.
9. Have your child be given an equal opportunity to participate in nonacademic and extracurricular activities offered by the school district.

10. Examine all relevant records relating to decisions regarding your child's identification, evaluation and placement. Obtain copies of educational records at a reasonable cost on the same terms as records are provided students without a disability unless the fee would effectively deny you access to the records.
11. Receive a response from the school district to reasonable requests for explanations and interpretations of your child's records.
12. Request amendment of your child's educational records if there is reasonable cause to believe that they are inaccurate, misleading or otherwise in violation of the privacy rights of your child. If the school district refuses this request, it shall notify you within a reasonable time, and advise you of the right to a hearing.
13. File a local grievance in accordance with school policy.
14. Request an impartial hearing related to decisions regarding your child's identification, eligibility, and educational program or placement with opportunity for participation by the person's parents or guardian and representation by counsel, and a review procedure. This is provided in the local grievance procedure.

Section 3 Guidance Services

Leigh Community Schools employs counselor(s) for the purpose of assisting with the District's testing program, to assist with scheduling and for students to discuss problems and resolve conflicts. If you wish to see a counselor, stop by a counselor's office and make arrangements for an appointment.

Section 4 Health Services

Student Illnesses

School health personnel will notify parents when a student needs to be sent home from school due to illness. Conditions requiring a student be sent home include: Temperature greater than 100°F., vomiting, diarrhea, unexplained rashes, live head lice, or on determination by the school nurse that the child's condition prevents meaningful participation in the educational program, presents a health risk to the child or others, or that medical consultation is warranted unless the condition resolves.

Please include emergency daytime phone numbers on your child's enrollment card so that you can be reached if your child becomes ill or injured while at school. Please also inform your school health office staff of health related information you feel is important for your student's success in the classroom and/or safety at school.

Guidelines for Administering Medication

Whenever possible your child should be provided medications by you outside of school hours. In the event it is necessary that your child take or have medication available at school, the parents/guardians must provide a signed written consent for the child to be given medication at school. A consent form is available at the school health office. If your child has asthma or diabetes and is capable of self-managing his or her health condition, contact the health office to develop a self-management plan.

Medications must be provided to the school by the parent/guardian in the pharmacy-labeled or manufacturer-labeled bottle. Repackaged medications will not be accepted. All medications also require a physician's authorization to be given at school. The school nurse may limit medications to those set forth in the Physician's Desk Reference (PDR). Please limit the amount of medication provided to the school to a two-week supply.

School Health Screening

Children in Preschool and Kindergarten through third grade, as well as children in sixth and ninth grades are screened for vision, hearing, dental defects, height and weight. The screening program also incorporates scoliosis and blood pressure at the sixth and ninth grades. Students entering the Student Assistance Process at any grade level, and those about whom health concerns are identified to the school nurse, may also be screened. Parents who do not wish their child to participate in the school screening program must communicate this in writing to the school health office at the start of the school year. Because Nebraska statutes require school-age screening, parents who remove their child from the screening program must submit findings from an alternate medical provider to the school by December 1.

Physical and Visual Examination

Evidence of a physical examination and a visual evaluation is required within six (6) months prior to entrance into kindergarten and, in the case of transfer from out of state, to any other grade. A physical examination is also required prior to entrance into the seventh grade. The physical examination is to be completed by a physician, a physician's assistant, or an advanced practice registered nurse; the visual evaluation is to be completed by any of the forgoing or an optometrist. A parent or guardian who objects to the physical examination and/or visual evaluation may submit a written statement of refusal for his or her child. Waiver forms are available in the school health office. Additional physical examination requirements exist for students participating in athletic participation.

Section 5: Immunizations

Students must show proof of immunization. A student who does not comply with the immunization requirements will not be permitted to continue in school. Students with medical conditions or sincerely held religious beliefs which do not allow immunizations must complete a waiver statement or affidavit. Forms are available in school health offices.

Unimmunized students may be excluded from school in the event of a disease outbreak.

Section 6: Birth Certificate Requirements

State law requires that a certified copy of a student's birth certificate be provided within 30 days of enrollment of a student in school for the first time. You may obtain a certified copy from the Bureau of Vital Statistics in the state in which your child was born. Assistance in obtaining birth certificates may be obtained from Health Records Management, P.O. Box 95065, Lincoln, NE 68509-5065. There is a fee per certificate.

Please note: The document parents receive from the hospital looks like a birth certificate, but it is not a certified copy. A certified copy has the raised seal of the state of Nebraska on it and is signed by the director of vital statistics.

If a birth certificate is unavailable, other reliable proof of a student's identity may be used. These documents could include naturalization or immigration documents showing date of birth or official hospital birth records, a passport, or a translation of a birth certificate from another country. The documents must be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate.

Section 7: Guidelines for Head Lice

The following guidelines are in place to: better control a nuisance condition; reduce absenteeism due to head lice; and involve parents as partners with the school in control efforts:

1. Children will be sent home from school for live head lice. In the event a child has two (2) cases of live lice in a semester, the child will be sent home until free of both live lice and nits (eggs).
2. Health office staff will provide written treatment information and instructions, including how to check and identify head lice*.
3. A child who is sent home from school for head lice should miss no more than two (2) school days.
4. A child who has been sent from school due to head lice must come to the health office for inspection before returning to class.
5. A child who returns to class with nits (eggs) will be checked again in 7-10 days.
6. Families are encouraged to report head lice to the school health office.
7. Classroom-wide or school-wide head checks will be conducted as needed in order to control the condition at school.

*Nit removal will be emphasized for effective management of the condition. For more information call the nurse at your child's school.

Article 7 - Drugs, Alcohol and Tobacco

Section 1 Drug-Free Schools

The District implements regulations and practices that will ensure compliance with the federal Safe and Drug-Free Schools and Communities Act and all regulations and rules promulgated pursuant thereto. The District's safe and drug-free schools program is established in accordance with principles of effectiveness as required by law to respond to such harmful effects. The consistent message of the program is that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful.

Section 2 Standards of Student Conduct Pertaining to Drugs, Alcohol and Tobacco

These standards are in addition to standards of student conduct elsewhere adopted by board policy or administrative regulation. The District's standards prohibit the possession, use, or distribution of illicit drugs or alcohol on school premises, in school vehicles, or as a part of any of the school's activities on or off school premises. Conduct prohibited at places and activities as hereinabove described shall include, but not be limited to, the following:

1. Possession, use, distribution or being under the influence of any controlled substance, including but not limited to marijuana, any narcotic drug, any hallucinogen, any stimulant, or any depressant.
2. Possession of any prescription drug in an unlawful fashion.
3. Possession, use, distribution or being under the influence of alcohol.
4. Possession, use, distribution, or being under the influence of any abuseable glue or aerosol paint or any other chemical substance for inhalation, including but not limited to lighter fluid, whiteout, and reproduction fluid, when such activity constitutes a substantial interference with school purposes.
5. Possession, use, or distribution of any look-alike drug or look-alike controlled substance when such activity constitutes a substantial interference with school purposes.
6. Possession, use or distribution of any tobacco or vapor product.

Disciplinary Sanctions

Violation of any of the above prohibited acts will result in disciplinary sanction being taken within the bounds of applicable law, up to and including expulsion and referral to appropriate authorities for criminal prosecution. In particular, students should be aware that:

1. Violation of these standards may result in suspension or expulsion.
2. Prohibited substances will be confiscated and unlawful substances will be turned over to law enforcement authorities.
3. The student may be referred for counseling or treatment.
4. Parents or legal guardian will be notified.
5. Law enforcement will be notified.
6. If it appears there is imminent danger to the student, other students, school personnel, or students involved, emergency medical services will be contacted.

Intervention

The District does not have the authority or responsibility to make medical or health determinations regarding chemical dependency. However, when observed behavior indicates that a problem exists which may affect the student's ability to learn or function in the educational environment, the school has the right and responsibility to refer the student for a formal chemical dependency diagnosis based on behavior observed by school staff.

Administration

The administration is authorized to adopt such administrative rules, regulations or practices necessary to properly implement this policy. Such regulations, rules or practices may vary the procedures set forth herein to the extent necessary to fit the circumstances of an individual situation. Such rules, regulations and practices may include administrative forms, such as checklists to be used by staff to record observed behavior and to determine the proper plan of action.

Article 8 - Student Rights, Conduct, Rules and Regulations

Part 1 Student Conduct and Discipline Policies:

The common goal of students, parents, faculty and administration of Leigh High School is to maintain a school atmosphere that is conducive to learning. In order to achieve this, Leigh High School will continue to review reasonable and fair rules and policies. Violations of the Leigh Community Schools rules and regulations will result in disciplinary action.

Part 2 Forms of School Discipline

Short-Term Suspension:
The Principal may exclude students for a period of up to five school days (short-term suspension) on the following grounds:

1. Conduct constituting grounds for expulsion as hereinafter set forth; or,

2. Other violations of rules and standards of behavior adopted by the Leigh Community School Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

1. The Principal or the Principal's designee shall make a reasonable investigation of the facts and circumstances. In addition, such short-term suspension will be made only after a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
2. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
3. Within 24 hours or such additional time as is reasonably necessary following the suspension, the Principal or administrator will send a written statement to the student, and the student's parent or guardian, describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to the parent or guardian is to attend the conference.

Long-Term Suspension:
The Principal or the Principal's designee from school or any school function may exclude students for a period of more than five school days but less then twenty school days on (long-term suspension) the conduct constituting grounds for expulsion as hereinafter set forth. The process for long-term suspension is hereinafter set forth.

Expulsion:

1. Meaning of Expulsion. Expulsion shall mean exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period.
2. Summer Review. Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year. The review will be conducted by the hearing officer who conducted the initial expulsion hearing, or a hearing officer appointed by the Superintendent in the event no hearing was previously held or the initial hearing officer is no longer available or willing to serve, after the hearing officer has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing officer that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the Superintendent.
3. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect, and as a condition of such suspended action, the student may be assigned to a school, class, or program and to such other consequences which the school district deems appropriate. In lieu of other authorized educational programs to which the student may be assigned, such school, class, or program may be offered as a community-centered classroom and may include experiences for the student as an observer or aide in governmental functions, as an on-the-job trainee, and as a participant in specialized tutorial experiences or individually prescribed educational and counseling programs. Such programs shall include an individualized learning program to enable the student to continue

academic work for credit toward graduation. At the conclusion of the designated period: (1) if the student has satisfactorily participated in the school, class, or program to which such student has been assigned the student shall be reinstated and permitted to return to the school of former attendance or to attend other programs offered by the district, and action to expunge the record of the expulsion action may be taken at the discretion of the Superintendent or his or her designee, or (2) if the student's conduct has been unsatisfactory, the expulsion action shall be enforced. The determination of whether the students' participation and conduct has been satisfactory or not shall be made by Principal or the Principal's designee.

4. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal's designee shall meet with the student's probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal's designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

Other Forms of Student Discipline:

Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions during the day. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures and a failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

Part 3 Student Conduct:
Students have an opportunity to learn by sharing some of the responsibility for creating a good learning environment. To help maintain a quality instructional environment for all students attending Leigh High School, all students are expected to refrain from the following conduct.

Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment:

The failure to refrain from the following conduct shall constitute grounds for long-term suspension, expulsion, or mandatory reassignment, subject to the procedural provisions of the Student Discipline Act, Neb. Rev. Stat. § 79-254 through 79-296, when such activity occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event:

1. Use of violence, force, coercion, threat, intimidation, or similar conduct in a manner that constitutes a substantial interference with school purposes;
2. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property;
3. Causing or attempting to cause personal injury to a school employee, to a school volunteer, or to any student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision;
4. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student;
5. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon;
6. Engaging in the possession, selling, dispensing, or use of a controlled substance or an imitation controlled substance, as defined in section 28-401, a substance represented to be a controlled substance, or alcoholic liquor as defined in section 53-103 or being under the influence of a controlled substance or alcoholic liquor (note: the term "under the influence" for school purposes has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant);
7. Public indecency;
8. Sexually assaulting or attempting to sexually assault any person. In addition, if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults, the student is subject to suspension, expulsion, or mandatory reassignment regardless of where the conduct took place. For purposes of this subdivision, sexual assault

shall mean sexual assault in the first degree and sexual assault in the second degree as defined in sections 28-319 and 28-320, as such sections now provide or may hereafter from time to time be amended;

9. Truancy or failure to attend assigned classes or assigned activities;
10. Tardiness to school, assigned classes or assigned activities;
11. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, national origin, or religion;
12. Dressing in a manner which is dangerous to the student's health and safety, a danger to the health and safety of others, or which is disruptive, distractive or indecent to the extent that it interferes with the learning and educational process. (Further dress code information is provided in a later section).
13. Willfully violating the behavioral expectations for those students riding Leigh Community School buses.
14. Engaging in any other activity forbidden by the laws of the State of Nebraska which activity constitutes a danger to other students or interferes with school purposes; or
15. A repeated violation of any rules and standards validly established by the Board of Education or school officials if such violations constitute a substantial interference with school purposes.
16. In addition, a student who engages in the following conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:
    a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or,
    b. The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.

17. In addition, a student who is determined to have brought a firearm to school, or to have possessed a firearm at school, shall be expelled from school for a period of not less than one year. The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing. The term "to school" or "at school" means on school grounds, in a

vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event.

Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.
c. A plan for its transportation into and from the school, its storage while in the school building and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.
d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

Additional Student Conduct Rules:
The following additional student conduct rules are established. Failure to comply with such rules is grounds for disciplinary action, up to and including expulsion, as further specified in these rules. These rules govern student conduct on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event.

18. Student Appearance Policy: (Dress Code)
Students at Leigh High School are expected to dress in a way that is appropriate for a school setting. Students should not dress in a manner that is dangerous to the health and safety of anyone or interferes with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting: (See attachment A at the end of Article 8).

e. Head wear including hats, caps, bandannas, headbands and scarves; hoods on sweatshirts and jackets must be kept down while in the school building
f. Clothing or jewelry which exhibits nudity, makes sexual references or carries double meanings.
g. To reduce potential injury, boys are not allowed to wear an earring that hangs below the ear lobe.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

19. Harassment and Bullying Policy:
It is the policy of Leigh Community School that "bullying" type behavior is not to be permitted. These guidelines are established to respond specifically to bullying behavior. Students and parents are advised that other response measures are also in place and set forth in Article 10 of this handbook for behavior which is discriminatory or harassing on unlawful grounds (e.g., sexual harassment, harassment of students with disabilities, race harassment, etc.).

a. The first time school personnel become aware of a possible harassment or bullying situation, the accused student will be informed that such a complaint has been filed. At that time a warning will be given regarding this kind of behavior. The consequences for this kind of behavior in the future will be clearly outlined for the student. If, in the school's opinion, the first occurrence of harassment behavior is severe, the school may move immediately to suspension or expulsion. The Leigh Community Schools discipline policy may be implemented and an individual plan could be developed between parent, teacher student and administration.

20. Public Displays of Affection:
Public Displays of affection will not be tolerated on school property or at school activities. Such conduct includes: hugging, kissing, holding hands or any other types of affection that would be considered inappropriate or an undue distraction to others. Students will face the following consequences if this type of behavior occurs.
    a. 1st Offense: Student will be confronted and directed to cease.
    b. 2nd Offense: Student will be confronted, directed to cease, and parents will be notified.
    c. 3rd Offense: Students will be suspended from school for a minimum of 1 day, and parents and student will need to meet with Administrator (s) and counselor.
    d. If this type of behavior continues, the student could face long-term suspension or expulsion.

21. Dating Violence. Dating violence, as that term is defined by Nebraska law, will not be tolerated. Students who engage in dating violence will receive consequences that are consistent with the Nebraska Student Discipline Act and this district's student discipline policies.
The district shall provide dating violence training to staff as deemed appropriate by the administration and in accordance with Nebraska law.

22. Profanity. The use of profanity within the school or on school sponsored activities is not permitted. Administrators, faculty, students and guests are asked to refrain from the use of profanity during classes and in school plays.

23. Snowballing. Snowballing on the school grounds, directing snowballs toward the school grounds, cars, or persons walking to school is subject to disciplinary action. This is to ensure the safety of all students.

24. Initiation into Classes or Organizations. The practice of initiation into classes or organizations in the Leigh Schools is not permitted.

25. Student Car Driving at Noon. The pupils who drive cars to school are to leave them parked at noon. Cars are to be parked in the area adjacent to the school ground. Pupils are not to be sitting in the cars. In an emergency situation a student may drive at noon by receiving permission from the principal in advance. The running of errands shall not be considered an emergency.

26. Hall Passes and Hall Congregating. Students are not given locker passes, restroom passes or telephone passes to leave a classroom or study hall unless special circumstances arise. Congregating in the halls should be kept at a minimum. Teachers in the High School will be assigned special duty to see that congregating does not persist. Pupils who consistently congregate in the halls will receive discipline measures.

27. Use of Cell phones. Students are not allowed to use their cell phones during the academic school day. Students are allowed to use their phones during the lunch period. If a student uses his/or her cell phone during the school day it will be taken from them and turned over to the Principal.

28. Electronic Devices. No personal electronic devices (i.e. MP3/4 Players, iPods, tablets, etc.) are to be used by students during school hours unless given permission by the teacher for an academic purpose. As 7-12 students have access to a school issued laptop, the need for other personal devices for academic purpose should be minimal.

29. STUDENT INTERNET AND COMPUTER ACCESS POLICY

Students are expected to use computers and the Internet as an educational resource. The following procedures and guidelines govern the use of computers and the Internet.

A. Acceptable Use

1. Students may use the Internet to conduct research assigned by teachers.
2. Students may use the Internet to conduct research for classroom projects.
3. Students may use the Internet to gain access to information about current events.

13. Students shall not take home technology equipment (hardware or software) without permission of the system administrator.
14. Students shall not forge electronic mail messages or web pages.

II. Enforcement

A. Methods of Enforcement

1. The district monitors all Internet communications, Internet usage and patterns of Internet usage. Students have no right of privacy to any Internet communications or other electronic files. The computer system is owned by the school district. As with any school property, any electronic files on the system

are subject to search and inspection at any time.

2. The school district uses a technology protection measure that blocks access to some Internet sites that are not in accordance with the policy of the school district. Standard use of the Internet utilizes a proxy server-based filter that screens for non-curriculum related pages.

3. Due to the nature of filtering technology, the filter may at times filter pages that are appropriate for student research. The system administrator may override the technology protection measure for the student to access a site with legitimate educational value that is wrongly blocked.

4. The school district staff will monitor students' use of the Internet through direct supervision and by monitoring Internet use history to ensure enforcement of the policy.

B. Consequences for Violation of this Policy

1. Access to the school's computer system and to the Internet is a privilege, not a right. Any violation of school policy and rules may result in:

a. Loss of computer privileges;

b. Short-term suspension;

c. Long-term suspension or expulsion in accordance with the Nebraska Student Discipline Act; and

d. Other discipline as school administration and the school board deem appropriate.

2. Students who use school computer systems without permission and for non-school purposes may be guilty of a criminal violation and will be prosecuted.

III. Protection of Students

A. Children's Online Privacy Protection Act (COPPA)

1. The school will not allow companies to collect personal information from children under 13 for commercial purposes. The school will make reasonable efforts to disable advertising in educational computer applications.

2. This policy allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for education purposes.

B. Education About Appropriate On-Line Behavior

1. School district staff will educate students about appropriate online behavior, both in specific computer usage units and in the general curriculum.

2. Staff will specifically educate students on

a. Appropriate interactions with other individuals on social networking websites and in chat rooms.

b. cyberbullying awareness and response.

3. The School District's technology coordinator shall inform staff of this educational obligation and shall keep records of the instruction which occurs in compliance with this policy.

Consequences

Automatic notification will be made to the parent or guardian of any infraction. Depending on the severity of the information, ANY of the following consequences may be imposed:

1. Appropriate legal action will be taken.
2. Conference with parent or guardian.
3. Individual access privileges will be revoked.
4. Loss of Internet access for a determined period of time.
5. School disciplinary action according to the handbook and posted rules.
6. Suspension in or out of school.

Part 4 Due Process Procedure

Procedures for Long-Term Suspension, Expulsion or Mandatory Reassignment: The following procedures shall be followed with regard to any long-term suspension, expulsion or mandatory reassignment.

1. The Principal shall prepare a written summary of the alleged violation and the evidence supporting the alleged violation with the Superintendent or his or her designee.
2. If the Principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers, and a notice of intent to discipline the student by long-term suspension, expulsion, or mandatory reassignment is filed with the Superintendent or his or her designee, the student may be suspended by the Principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if no hearing is requested or, if a hearing is requested, the date the hearing examiner makes the report of his or her findings and a recommendation of the action to be taken to the Superintendent.
3. The Principal or his or her designee shall serve by registered or certified mail or by personal service the student and the student's parents or guardian with a written notice within two school days of the date of the decision to recommend long-term suspension or expulsion. Said notice shall include the following

   (a) The rule or standard of conduct allegedly violated and the acts of the student alleged to constitute a cause for long-term suspension or expulsion including a summary of the evidence to be presented against the student as submitted by the Principal or assistant Principal.
   (b) The penalties to which the student may be subjected and the penalty which the Principal, or his or her designee has recommended in the charge.

(c) A statement explaining the student's right to a hearing upon request on the specified charges.
(d) A description of the hearing procedures provided by these policies along with procedures for appealing any decision rendered at the hearing.
(e) A statement that the administrative representative, legal counsel for school, the student, the student's parents, or the student's representative or guardian shall have the right to examine the student's academic and disciplinary records and any affidavits to be used at the hearing concerning the alleged misconduct, and the right to know the identity of the witnesses to appear at the hearing and the substance of their testimony.
(f) A form or a request for hearing to be signed by such parties and delivered to the Principal or his or her designee in person or by registered or certified mail.

4. Nothing in this policy shall preclude the student, student's parents, guardian or representative from discussing and settling the matter with appropriate school personnel prior to the hearing stage.
5. In the event that the Principal has not received a request for hearing within five school days following receipt of the written notice, the punishment recommended in the charge by the Principal, or his or her designee shall automatically go into effect.
6. If a hearing is requested more than five school days following the actual receipt of the written notice, but not more than thirty calendar days after actual receipt, the student shall be entitled to a hearing but the punishment imposed may continue in effect pending final determination.
7. If a request for hearing is not received within thirty calendar days following the mailing or delivery of the written notice, the student shall not be entitled to a hearing.
8. In the event that a hearing is required to be provided, the Superintendent shall appoint a hearing officer.

Hearing Procedure:

1. Hearing Officer. The hearing officer shall be any person designated by the Superintendent. The hearing officer shall be an individual who has had no involvement in the charge, will not be a witness at the hearing and who has not brought the charges against the student. It shall be the duty of the hearing officer to remain impartial throughout all deliberations. The hearing officer shall be available prior to any hearing held pursuant to this policy to answer any questions the administrative representative, the student, the student's parents, or guardian, may have regarding the nature and conduct of the hearing.
2. Administrative Representative. The Principal may appoint an administrative representative to present the facts and evidence. Such administrative representative may be an attorney or may be represented by an attorney, but any such attorney shall not advise the hearing officer or parties who may review the proceedings as their counsel.

3. Notice of Hearing. If a hearing is requested within five school days of receipt of the notice, the hearing officer shall, within two school days after being appointed, give written notice to the administrative representative, and the student, the student's parents or guardian of the time and place for the hearing. The hearing shall be scheduled within a period of five school days after it is requested. No hearing shall be held upon less than two school days' actual notice to the administrative representative, and the student, the student's parents, or guardian, except with the consent of all of the parties.
4. Continuance. Upon written request of the student or the student's parents or guardian, the hearing officer shall have the discretionary authority to continue from time to time the hearing. In addition, the hearing officer may continue the hearing upon any good cause.
5. Access to Records. The administrative representative, the student, the student's parent or guardian and the legal counsel of the student shall have the right to examine the records and affidavits and the statements of any witnesses in the possession of the Leigh Schools Board of Education at any reasonable time prior to the hearing.
6. Hearing Procedure. The hearing shall be attended by the hearing officer, the student, the student's parents, or guardian, the student's representative if any, and the administrative representative. Witnesses shall be present only when they are giving information at the hearing or with the consent of both parties. The student may be excluded at the discretion of the hearing officer at times when the student's psychological evaluation or emotional problems are being discussed. The student or the student's parents or guardian or both may be represented by legal counsel. The hearing examiner may exclude anyone from the hearing when his/her actions substantially disrupt an orderly hearing. The formal rules of evidence shall not apply at the hearing. The administrative representative shall present to the hearing officer statements, in affidavit form, of any person having information about the student's conduct and the student's records, but not unless such statements and records have been made available to the student, the student's parents, guardian or representative prior to the hearing. The information contained in such records shall be explained and interpreted prior to or at the hearing to the student, parents or guardian, or representative at their request, by appropriate school personnel. The student, the student's parents, guardian, or representative, the administrative representative or the hearing officer may ask witnesses to testify at the hearing. Such testimony shall be under oath and the hearing officer shall be authorized to administer the oath. The student, parent, guardian, or representative, administrative representative, or the hearing officer shall have the right to question any witness giving information at the hearing, the student may testify in his/her own defense in which case he/she shall be subject to cross-examination nor will any conclusion be drawn there from. Any person giving evidence by written statement or in person at a hearing shall be given the same immunity from liability as a person testifying in a court case. A single hearing may be conducted for more than one student if in the discretion of the hearing examiner

a single hearing is not likely to result in confusion or prejudice to the interest of any of the students involved. If during the conduct of such a hearing, the hearing examiner concludes that any of such student's interests will be substantially prejudiced by a group hearing, or that confusion is resulting, the hearing examiner may order a separate hearing for each or any of said students.

7. Availability of Witnesses. The hearing officer will have the authority to subpoena any witnesses to the hearing and shall make reasonable efforts to assist in obtaining the attendance of any witnesses requested by the student, student's parents or guardian or their legal representative.
8. Record. The proceedings of the hearing shall be recorded at the expense of the school district.
9. Findings. Within a reasonable time after the conclusion of the hearing, the hearing officer shall prepare and submit to the Superintendent of schools his/her written findings and recommendation as to disposition. This report shall explain, in terms of the needs of both the student and the school board, the reasons for the particular action recommended. Such recommendation may range from no action, through the entire field of counseling, to long-term suspension, expulsion, or mandatory reassignment.
10. Review by Superintendent. The Superintendent of schools shall review the findings and recommendations of the hearing officer and in his/her discretion may also review any of the facts and evidence presented at the hearing and based upon such report and the facts shall determine the sanctions to be imposed. However, the Superintendent may not impose a more severe sanction than that imposed by the hearing officer.
11. Notice of Determination. Written notice of the findings and recommendations of the hearing officer and the determination of the Superintendent of schools shall be made by certified registered mail or by personal delivery to the student, the student's parents or guardian. Upon receipt of such written notice by the student and/or parents and guardian, the determination of the Superintendent shall take immediate effect.
12. Appeal to Board. The student, student's parents or guardian may, within seven school days following the receipt of the Superintendent's decision, submit to the Superintendent of schools a written request for a hearing before the Board of Education.
13. Review by Board of Education. Upon receipt of the request for review of the Superintendent's determination, the Board of Education or a committee of not less than three members shall, within ten school days, hold a hearing on the matter. Such hearing shall be made on the record except that the board may admit new or additional evidence to avoid substantial threat of unfairness. Such new evidence shall be recorded. The Board of Education or committee thereof may withdraw to deliberate privately upon the record and new evidence. Any such deliberation shall be held in the presence only of board members in attendance at the appeal proceeding, but may be held in the presence of legal counsel who has not previously acted as the administrative representative in presenting the school's case before the hearing officer. If any questions arise

during such deliberations which require additional evidence, the Board of Education or committee thereof may require the hearing to receive such evidence, subject to the right of all parties to be present. A record of any such new or additional evidence shall be made and shall be considered as a part of the record and based upon the evidence presented at the hearing before the hearing officer, and such new or additional evidence, the Board of Education or the committee shall make a final disposition of the matter. The board may alter the Superintendent's disposition of the case if it finds his/her decision to be too severe, but it may not impose a more severe sanction. A designated method of giving notice by the Board of Education or committee thereof, if required, for any Board review shall be by posting on the schoolhouse door.

14. Final Decision of Board of Education. The final decision of board shall be delivered to the student and parents or legal guardian of the student by personally delivering the same or by mailing the same by certified or registered mail.

Article 9 - Extra-Curricular Activities - Rights, Conduct, Rules and Regulations

Section 1 Extra-Curricular programs:

Extra-curricular programs enrich the curriculum of the school by making available a wide variety of activities in which a student can participate. The Leigh High School will adhere to the rules and regulations set forth in Title IX guidelines on sex discrimination as well as other pertinent rules and regulations.

Section 2 Activity Philosophy:

Activities are considered an integral part of the school's program of education that provides experiences that will help boys and girls physically, mentally and emotionally. The element of competition and winning, though it exists, is controlled to the point it does not determine the nature or success of the program. This is considered to be educationally and psychologically sound because of the training it offers for living in a competitive society. Students are stimulated to want to win and excel, but the principles of good sportsmanship prevail at all times to enhance the educational values of contests. We believe that participation in activities, both as a player and as a student spectator, is an integral part of the students' educational experiences. Such participation is a privilege that carries with it responsibilities to the school, to the team, to the student body, to the community and to the students themselves. In their play and their conduct, students are representing all of these groups. Such experiences contribute to the knowledge, skill and emotional patterns that they possess, thereby making them better people and citizens.

Safety

The District's philosophy is also to maintain an activities program that recognizes the importance of the safety of the participants. To ensure safety, participants are required to become fully familiar with the dangers and safety measures established for the activity in which they participate, to adhere to all safety instructions for the activity in which they participate, and to exercise common-sense. In addition, the District requires that activity team members travel to and from out-of-town events as a unit. Any exceptions to this rule must be approved by both the parents and the coach/sponsor and should be done in writing prior to the departure to the event. The note should be given to the Coach/Sponsor or Principal.

Warning for Participants and Parents

The purpose of this warning is to bring your attention to the existence of potential dangers associated with athletic injuries. Participation in any intramural or athletic activity may involve injury of some type. The severity of such injury can range from minor cuts, bruises, sprains and muscle strains to more serious injuries to the body's bones, joints, ligaments, tendons, or muscles, to catastrophic injuries to the head, neck and spinal cord. On rare occasions, injuries can be so severe as to result in total disability, paralysis or death. Even with appropriate coaching, appropriate safety instruction, appropriate protective equipment and strict observance of the rules, injuries are still a possibility.

Section 3 Activity Code of Conduct:

This activity code of conduct is supplemental to the Leigh High School student code of conduct which is in Article 8 of this handbook and any action taken hereunder may be in addition to any action under the student code of conduct said policy.

Grounds for Extracurricular Discipline

The grounds for suspension from participation in interscholastic competition, or other participation in activities, events and competitions are set forth below. In becoming familiar with the conduct rules for extra-curricular activities, participants need to remember that they are not only representing themselves, but also, their school and community in all of their actions. Special conduct rules exist for the reasons that:

Participants in Activities, and School events Assume Responsibility for Leadership and are Representatives of Our School: Participants in extra-curricular activities assume a leadership role. The student body, the community and other communities judge our school on the students' conduct and attitudes, and how they contribute to our school spirit and community image. The students' performance and devotion to high ideals make their school and community proud.

Activities, and School events are a Privilege: Extra-curricular activities, and events have an important place in the educational program of the Leigh High School. It is a privilege for the students who choose to participate. Students who participate and are accepted into the program are expected to demonstrate cooperation, patience, pride, character, self-respect, self-discipline, teamwork, sportsmanship, and respect for authority. It is the belief that accepting responsibility for one's actions is a part of that philosophy.

The conduct rules apply to conduct of the student, regardless of whether the conduct occurs on and off school grounds. (If the conduct occurs on school grounds, at a school function or event, or in a school vehicle, the student may also be subject to further discipline under the general student code of conduct). The conduct rules apply to conduct which occurs at any time during the school year, and also includes the time frame which begins with the official starting day of the fall sport season established by the NSAA and extends to the last day of the spring sport season established by the NSAA, whether or not the student is a participant in an activity at the time of such conduct.

1. Engaging in the unlawful possession, selling, dispensing, or use of a controlled substance or alcoholic beverage.
2. Engaging in any activity forbidden by the laws of the State of Nebraska that substantially interferes with the activities of the school.
3. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property.
4. Causing or attempting to cause personal injury to a school employee, to a school volunteer, to any student, or to any other person.
5. Threatening or intimidating any student for the purpose of, or with the intent of, obtaining money or anything of value from such student.
6. Knowingly possessing, handling, or transmitting any object or material that is considered a weapon.
7. Engaging in the selling, using, possessing or dispensing of alcoholic beverages, tobacco, narcotics, drugs, controlled substance, inhalant or being under the influence of any of the above; or possession of drug paraphernalia. (Note: The term "under the influence" for school purposes has a less strict meaning than it

does under criminal law. For school purposes, the term means any level of impairment and includes even the odor of alcohol on the breath or person of a student. Also, it includes being impaired by reason of the abuse of any material used as a stimulant.)

8. Failure to attend all scheduled practices and meetings. If circumstances arise to prevent the participant's attendance, the coach will determine the validity of the reason. Every reasonable effort should be made to notify the coach or supervisor prior to all missed practices or meetings.
9. All other reasonable rules or regulations adopted by the coach or supervisor of a extra-curricular activity shall be followed, provided that participants shall be advised by the coach or supervisor of such rules and regulations by written handouts or posting on bulletin boards prior to the violation of the rule or regulation.
10. Any unbecoming conduct by a student that reflects poorly on the Leigh Community.

Definition of Activities, Events, and Competitions

Activities include- Pep Band, Cheerleading/Dance, FFA activities, FCCLA activities, Sports Activities, and any activities considered extra or outside of the graded curriculum.
Events include- Homecoming, Prom, Banquets, Dances, Candidate representation of any these events, Conventions or Conferences
Competitions include- Quiz Bowls, Academic Competitions, Athletic Competitions, Musical Competitions, and any competitions that students represent Leigh Community Schools

All NSAA and EHC Conference Activities are included in this policy.

* This list serves as a guideline but extra programs and activities change according to need and staffing. This list may not be all-inclusive. The intent of this policy is to cover all extra-curricular activities. These are activities that are outside the curriculum area and are intended as extra and do not impact the graded curriculum.

Activities Citizenship Rules

Participants will be suspended from activities when it has been established by the school administration and activity sponsor that the student has been in possession or use of tobacco, vapor products, alcohol, narcotics, steroids, or hallucinogenic drugs or substances. The consequences associated with these violations are noted in the proceeding section.

Students may be suspended from practices or participation in interscholastic competition, co-curricular activities, or school sponsored events for violations of the Code of Conduct. The consequences shall be determined by the school administration. The consequences will be determined based upon seriousness of the offense, the student's compliance with self-reporting obligations, the student's level of cooperation and willingness to resolve the matter, and the student's demonstration of a commitment to avoid future violations.

Penalties (Drugs, Alcohol, Steroids, Tobacco, Vapor Products)

If a student self-reports his or her misconduct to the administration, the student is eligible to have a shorter suspension. This policy promotes self-accountability and ownership of one's actions. This option is only available once in a student's academic career. For example, a student violating the activity code as a freshman could self-report and receive a reduced consequence. If the same student then violates the activity code as a junior, the violation would be treated as first offense/not-self reporting regardless of whether the student reported his or her violation.

	First Offense: Self Reporting	First Offense: Not-Self Reporting
FB	1 game suspension	2 game suspension
VB	2 match suspension	4 match suspension
SB	2 game suspension	4 game suspension
BB	2 game suspension	4 game suspension
WR	1 meet suspension	2 meet suspension
T	1 meet suspension	2 meet suspension
GOLF	1 meet suspension	2 meet suspension
CHEER	2 game suspension	4 game suspension
DANCE	2 game suspension	4 game suspension

Students involved in fine arts/vocational arts activities would be suspended from one activity. Suspensions in fine arts/vocational arts shall not affect the student's grade.

For counting purposes, each game, match, or meet referenced above involves a separate scheduled date. For example, a softball player is assigned a two game suspension. If she must sit out a double header on Tuesday, this counts as one game. She would also need to sit out the next day a game is scheduled.

For a second violation of the participation rules occurring in the same school year as the first violation, the student shall be ineligible to participate in activities for a minimum of thirty (30) calendar days to include a minimum of four (4) events. Both conditions, time and number of events, must be satisfied before the student is eligible to again participate in activities.

For a third violation of the participation rules occurring in the same school year as the first violation, the student shall be ineligible to participate in activities for 180 calendar days.

For second and third violations of the activity policy in the same school year, the time period associated with the penalty begins on the day of the first scheduled event for any activity in which the student is a participant.

Activity suspensions earned in the Spring will carry over to the Fall if the suspension has not been fully served.

A student earning a second or third activity suspension in the same school year forfeits the ability to earn a letter in the activity affected by the suspension.

Procedures for Extracurricular Discipline

Students may be suspended by the Administration from practices or participation in school sponsored activities, events or competitions for violation of rules and standards of behavior adopted by the Leigh Community School Board of Education or the administrative staff of the school.

The following procedures will be followed with regard to suspension:

1. The school official(s) considering the suspension will make a reasonable investigation of the facts and circumstances and determine whether the suspension will help the student or other students, further school purposes, or prevent an interference with school purpose.

2. Prior to commencement of the suspension, the student is to be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done; an explanation of the evidence the school has, and is given the opportunity to explain the student's version of the facts.

   If the student is not readily available to meet with the school official for this purpose before the suspension is to begin, then the suspension may be imposed at that time so long as the opportunity for the student to hear the charges and evidence and for the student to tell his or her side of the story occurs as soon as reasonably practicable. An effort to schedule a meeting for this purpose should be made by the student and the student's parent or guardian as well. Given the fact that extracurricular activity suspension actions at times need to be taken outside the regular school day, a telephone conference may be used to give the student the opportunity to provide the student's position.

4. Within two school days or such additional time as is reasonably necessary following the suspension, the Administration will send a written statement to the student and the student's parents, or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reason for the action taken and the right to a hearing upon request on the specified charges.

5. An opportunity will be afforded the student, parents, or guardian of the student, at their request, to confer on an informal basis with regard with the school official who has imposed the suspension and to give that school official any further information in the student's defense.

6. If the student or student's parents or guardian are not satisfied with the determination of the school official, an informal hearing may be requested before the Superintendent. A form to request such a hearing must be signed by the parent or guardian will either be provided with the initial notice letter or be made available in the Principal's office. This request must be received by the building

principal within five days of receiving the initial written notice of suspension.

7. If a hearing is requested, it shall be held within ten calendar days of the request. The Superintendent will notify the participants of the time and place of the hearing within five days of receiving the request. There will be no stay of the penalty imposed pending an appeal.

8. Upon conclusion of the hearing, a written decision will be rendered within five school days. The written decision will be mailed or otherwise delivered to the participant, parents or guardian. A record of the hearing (copies of documents provided at the hearing and a tape recording or other recordation of the hearing itself) shall be kept by the school.

Section 4 "Team Selection" and "Playing Time":

"Team selection" and "playing time" decisions are the responsibility of the individual coach or sponsor of the activity. Consistent, however, with the purposes of the activities program, the coaches and sponsors shall follow the following established guidelines for team selection and playing time decisions, along with such other guidelines as each individual coach and sponsor may develop which are not inconsistent with these established guidelines:

1. School Representative. Student participants must demonstrate that they can and will represent themselves and their school in a manner that reflects the development of high ideals and appropriate values, which shall include good citizenship in the school and in the community.

2. Success. Student participants must demonstrate that they can make the activity program more successful, both from a standpoint of competitive success and success in promoting a positive school spirit. Characteristics for purposes of this criteria include the student's: (1) talent or skill, (2) desire to improve the student's own skills or talents as well as those of others in the activity, and (3) attitude of respect towards teammates, the coach, the school, and the community.

Section 5 Academic Eligibility Standard for Activities Participation:

Participation in extra-curricular school activities is encouraged and desirable for all students. At the same time, the principal mission and responsibility for each student is to establish a firm academic foundation. A student participating in extra-curricular school activities must therefore follow the following guidelines:

1. Eligibility standards for students in grades 9-12: (a) Students must have passed 20 credit hours (4 classes that meet 50 minutes per day for 180 days per year) the preceding semester. (b) Students must be enrolled in six subjects and must be passing all graded subjects of their current enrollment. (c) Students must be in good disciplinary standing at the school. Section 6 Student Fees Policy:

The Board of Education of Leigh Community School has adopted this student fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's general policy is to provide for the free instruction in school in accordance with the Nebraska Constitution. This generally means that the District's policy is to provide free instruction for courses which are required by state law or regulation and to provide the staff, facility, equipment, and materials necessary for such instruction, without charge or fee to the students.

The District does provide activities, programs, and services to children that extend beyond the minimum level of constitutionally required free instruction. Students and their parents have historically contributed to the District's efforts to provide such activities, programs, and services. Such student and parent contributions have included: students coming to school with the basic clothing and personal supplies to be successful in the classroom (clothing, shoes, pencils, pens, paper, notebooks, calculators, and the like), students bringing their own or paying the reasonable cost of specialized equipment or supplies for the personal preference or personal retained benefit of students (for example, band equipment, locker deposit or rental fees, shop class materials where the student keeps the product, and college tuition or fees for college credit for advanced placement courses or correspondence courses), students providing their own specialized clothing and equipment to be prepared for the extracurricular activities in which they choose to participate (sporting apparel, including shoes, undergarments, and the like), and assisting with special programs, such as field trips, summer school, school dances and plays. The District's general policy is to continue to encourage and to require, to the extent permitted by law, such student and parent contributions to enhance the educational program provided by the District.

Under the Public Elementary and Secondary Student Fee Authorization Act, the District is required to set forth in a policy its guidelines or policies for specific categories of student fees. The District does so by setting forth the following guidelines and policies: This policy is subject to further interpretation or guidance by administrative or Board regulations which may be adopted from time to time. Parents, guardians, and students are encouraged to contact their building administration or their teachers or activity coaches and sponsors for further specifics.

Guidelines for clothing required for specified courses and activities: Students have the responsibility to furnish and wear non-specialized attire meeting general District grooming and attire guidelines, as well as grooming and attire guidelines established for the building or programs attended by the students or in which the students participate. Students also have the responsibility to furnish and wear non-specialized attire reasonably related to the programs, courses and activities in which the students participate where the required attire is specified in writing by the administrator or teacher responsible for the program, course or activity. The District will provide or make available to students such safety equipment and attire as may be required by law, specifically including appropriate industrial-quality eye protective devices for courses of instruction in vocational, technical, industrial arts, chemical or chemical-physical classes which involve exposure to hot molten metals or other molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other similar hazards. Building administrators are directed to assure that such equipment is available in the appropriate classes and areas of the school buildings, teachers are directed to instruct students in the usage of such devices and to assure that students use the devices as required, and students have the responsibility to follow such instructions and use the devices as instructed.

Personal or consumable items: Students have the responsibility to furnish any personal or consumable items for participation in the courses and activities provided by the District. This includes the responsibility to furnish minor personal or consumable items including, but not limited to, pencils, paper, pens, erasers, and notebooks. Equipment or supplies of a specialized nature for certain courses (for example, protractors and math calculators) may be available to students by the District, but students may also be encouraged to purchase their own such equipment or supplies for their own use after school hours or for use during the school day due to the limited number of District items available to the students. A specific class supply list will be published annually in a Board-approved student handbook or supplement or other notice. The list may include refundable damage or loss deposits required for usage of certain District property. While the District will provide students with the use of facilities, equipment, materials and supplies, including books, the students are responsible for the careful and appropriate use of such property. Students and their parents or guardian will be held responsible for damages to school property caused or aided by the student and will also be held responsible for the reasonable replacement cost of school property which is placed in the care of and lost by the student.

Materials required for course projects: Students have the responsibility to furnish or pay the reasonable cost of any materials required for course projects where, upon completion, the project becomes the property of the student. Students must furnish musical instruments for participation in optional music courses that are not extracurricular activities. Use of a musical instrument without charge is available under the District's fee waiver policy; however, the District is not required to provide for the use of a particular type of musical instrument for any student.

Extracurricular Activities: Specialized equipment or attire. Extracurricular activities means student activities or organizations which are supervised or administered by the District, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the District. The District will generally furnish students with specialized equipment and attire for participation in extracurricular activities. The District is not required to provide for the use of any particular type of equipment or attire. Equipment or attire fitted for the student and which the student generally wears exclusively, such as dance squad, cheerleading, and music/dance activity (e.g. choir or show choir) uniforms and outfits, along with T-shirts for teams or band members, will be required to be provided by the participating student. The cost of maintaining any equipment or attire, including uniforms, which the student purchases or uses exclusively, shall be the responsibility of the participating student. Equipment which is ordinarily exclusively used by an individual student participant throughout the year, such as golf clubs, softball gloves, and the like, are required to be provided by the student participant. Items for the personal medical use or enhancement of the student (braces, mouth pieces, and the like) are the responsibility of the student participant. Students have the responsibility to furnish personal or consumable equipment or attire for participation in extra curricular activities or for paying a reasonable usage cost for such equipment or attire. For music courses that are extracurricular activities, students may be required to provide specialized equipment, such as musical instruments, or specialized attire, or for paying a reasonable usage cost for such equipment or attire.

Postsecondary Education Costs. Students are responsible for postsecondary education costs. The phrase "postsecondary education costs" means tuition and other fees associated with

obtaining credit from a postsecondary educational institution. For a course in which students receive both high school and postsecondary education credit or a course being taken as part of an approved accelerated or differentiated curriculum program, the course shall be offered without charge for tuition, transportation, books, or other fees, except tuition and other fees associated with obtaining credits from a postsecondary educational institution.

Transportation Costs. Students are responsible for fees established for transportation services provided by the District as and to the extent permitted by federal and state laws and regulations.

Copies of Student Files or Records. The Superintendent or the Superintendent's designee shall establish a schedule of fees representing a reasonable cost of reproduction for copies of a student's files or records for the parents or guardians of such student. A parent, guardian or students who requests copies of files or records shall be responsible for the cost of copies reproduced in accordance with such fee schedule. The imposition of a fee shall not be used to prevent parents of students from exercising their right to inspect and review the students' files or records and no fee shall be charged to search for or retrieve any student's files or records. The fee schedule shall permit one copy of the requested records be provided for or on behalf of the student without charge and shall allow duplicate copies to be provided without charge to the extent required by federal or state laws or regulations.

Participation in Before-and-After-School or Pre-Kindergarten Services. Students are responsible for fees required for participation in before-and-after-school or pre-kindergarten services offered by the District, except to the extent such services are required to be provided without cost.

Participation in Summer School or Night School. Students are responsible for fees required for participation in summer school or night school. Students are also responsible for correspondence courses.

Breakfast and Lunch Programs. Students shall be responsible for items which students purchase from the District's breakfast and lunch programs. The cost of items to be sold to students shall be consistent with applicable federal and state laws and regulations. Students are also responsible for the cost of food, beverages, and personal or consumable items which the students purchase from the District or at school, whether from a "school store," a vending machine, a booster club or parent group sale, a book order club, or the like. Students may be required to bring money or food for field trip lunches and similar activities.

Waiver Policy. The District's policy is to provide fee waivers in accordance with the Public Elementary and Secondary Student Fee Authorization Act. Students who qualify for free or reduced-price lunches under United States Department of Agriculture child nutrition programs shall be provided a fee waiver or be provided the necessary materials or equipment without charge for: (1) participation in extracurricular activities, (2) admission fees and transportation charges for student spectators attending extracurricular activities; (3) materials for course projects, and (4) use of a musical instrument in optional music courses that are not extracurricular activities. Participation in a fee waiver program is not required to qualify for free or reduced-price lunches for purposes of this section. Students or their parents must request a fee waiver prior to participating in or attending the activity, and prior to purchase of the

materials. Materials for course projects to be provided to free or reduced-price lunch eligible students shall be required to be approved by the administration in advance; the administration shall apply a standard based on providing materials which are equitable to those purchased for comparable students.

Distribution of Policy. The Superintendent or the Superintendent's designee shall publish the District's student fee policy in the Student Handbook or the equivalent (for example, publication may be made in an addendum or a supplement to the student handbook). The Student Handbook or the equivalent shall be provided to students of the District at no cost.

Student Fee Fund. The School Board hereby establishes a Student Fee Fund. The Student Fee Fund shall be a separate school district fund not funded by tax revenue, into which all money collected from students and subject to the Student Fee Fund shall be deposited and from which money shall be expended for the purposes for which it was collected from students. Funds subject to the Student Fee Fund consist of money collected from students for: (1) participation in extracurricular activities, (2) postsecondary education costs, and (3) summer school or night school.

Section 7 Sunday/Wednesday/Holiday Practices

1. Sunday Practices. It is the policy of the Leigh Community Schools to discourage practice of any extra curricular activities on Sunday. In special instances where Sunday practice may be necessary, permission can be granted by the administration if the person in charge of that activity makes a request. All Sunday practices will be reported to the Board of Education at their next regularly scheduled meeting. The Board will reserve the right to cancel or limit any or all practices on Sunday if they become excessive.

Sunday practices will typically be allowed when this is the night prior to sub-district, district, or football playoff games.

The seniors who take advantage of this privilege are expected to be responsible, productive students on the job and in the community. If students do not act responsibly and engage in conduct or behavior that reflects poorly on Leigh Community Schools they may lose the job release privilege. The following criteria are expected of each student that takes part in the job release program. If a student does not meet criteria the student may lose his or her job release privilege.

Section 3 Anti-discrimination & Harassment Policy

Elimination of Discrimination. Leigh Community Schools hereby gives this statement of compliance and intent to comply with all state and federal laws prohibiting discrimination or harassment and requiring accommodations. This school district intends to take necessary measures to assure compliance with such laws against any prohibited form of discrimination or harassment or which require accommodations.

Preventing Harassment and Discrimination of Students.

Purpose: Leigh Community Schools is committed to offering employment and educational opportunities to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination or harassment of any kind by administrators, teachers, co-workers, students or other persons is prohibited. In addition, [Name] Public Schools will try to protect employees and students from reported discrimination or harassment by non-employees or others in the work place and educational environment.

For purposes of this policy, discrimination or harassment based on a person's race, color, national origin, sex, disability, religion, age, pregnancy, childbirth or related medical condition, or other protected status, is prohibited. The following are general definitions of what might constitute prohibited harassment.

In general, ethnic or racial slurs or other verbal or physical conduct relating to a person's race, color, national origin, sex, disability, religion, age, pregnancy, childbirth or related

medical condition, or other protected status constitute harassment when they unreasonably interfere with the person's work performance or create an intimidating work, instructional or educational environment.

Age harassment (40 years of age and higher) has been defined by federal regulations as a form of age discrimination. It can consist of demeaning jokes, insults or intimidation based on a person's age.

Sexual harassment is defined by federal and state regulations as a form of sex discrimination. It can consist of unwelcome sexual advances, requests for sexual favors, or physical or verbal conduct of a sexual nature by supervisors or others in the work place, classroom or educational environment.

Sexual harassment may exist when:

Submission to such conduct is either an explicit or implicit term and condition of employment or of participation and enjoyment of the school's programs and activities;

Submission to or rejection of such conduct is used or threatened as a basis for employment related decisions, such as promotion, performance, evaluation, pay adjustment, discipline, work assignment, etc., or school program or activity decisions, such as admission, credits, grades, school assignments or playing time.

The conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working, class room or educational environment.

Sexual harassment may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually oriented "kidding" or "teasing", "practical jokes", jokes about gender-specific traits, foul or obscene language or gestures, displays of foul or obscene printed or visual material, and physical contact, such as patting, pinching or brushing against another's body.

Complaint and Grievance Procedures:
Employees or students should initially report all instances of discrimination or harassment to their immediate supervisor or classroom teacher. However, if the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student is encouraged to go to the next level of supervision. In the case of a student, the Principal would be the next or alternative person to contact.

If the employee or student's complaint is not resolved to his or her satisfaction within five (5) to ten (10) calendar days, or if the discrimination or harassment continues, or if as a student you feel you need immediate help for any reason, please report your complaint to the Superintendent of Leigh Community Schools. If a satisfactory arrangement cannot be obtained through the Superintendent, the complaint may be processed to the Board of Education.

The supervisor, teacher or the Superintendent will thoroughly investigate all complaints. These situations will be treated with the utmost confidence, consistent with resolution of the problem.

Based on the results of the investigation, appropriate corrective action, up to and including discharge of offending employees, and disciplinary action up to expulsion against a harassing student, may be taken. Under no circumstances will any threats or retaliation be permitted to be made against an employee or student for alleging in good faith a violation of this policy.

Section 4 Multicultural Policy

The philosophy of the District's multicultural education program is that students will have improved ability to function as productive members of society when provided with: (a) an understanding of diverse cultures and races, the manner in which the existence of diverse cultures and races have affected the history of our Nation and the world, and of the contributions made by diverse cultures and races (including but not be limited to African Americans, Hispanic Americans, Native Americans, Asian Americans and European Americans) and (b) with the ability and skills to be sensitive toward and to study, work and live successively with persons of diverse cultures and races. The mission shall also include preparing students to eliminate stereotypes and discrimination or harassment of others based on ethnicity, religion, gender, socioeconomic status, age, or disability.

Section 5 Notice to Parents of Rights Afforded by Section 504 of the Rehabilitation Act of 1973

The following is a description of the rights granted to qualifying students with disabilities under Section 504 of the Rehabilitation Act. The intent of the law is to keep you fully informed concerning the decisions about your child and to inform you of your rights if you disagree with any of these decisions. You have the right to:

1. Have your child take part in, and receive benefits from, public education programs without discrimination because of his/her disability.
2. Have the school district advise you of your rights under federal law.
3. Receive notice with respect to identification, evaluation or placement of your child.
4. Have your child receive a free appropriate public education.
5. Have your child receive services and be educated in facilities which are comparable to those provided to every student.
6. Have evaluation, educational and placement decisions made based on a variety of information sources and by persons who know the student and who are knowledgeable about the evaluation data and placement options.
7. Have transportation provided to and from an alternative placement setting (if the setting is a program not operated by the district) at no greater cost to you than would be incurred if the student were placed in a program operated by the district.
8. Have your child be given an equal opportunity to participate in nonacademic and extracurricular activities offered by the district.
9. Examine all relevant records relating to decisions regarding your child's identification, evaluation and placement.

11. File a local grievance.

Section 6 Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the District receives a request for access.

   Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading.

   Parents or eligible students may ask the School District to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

   One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee or assisting another school official in performing his or her tasks.

   A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

   Upon request, the District discloses education records without consent to officials of another School District in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

   Family Policy Compliance Office

U.S. Department of Education
400 Maryland Avenue, S.W.

Section 7 Notice Concerning Disclosure of Student Recruiting Information
Federal law requires that the District provide military recruiters and institutions of higher education access to secondary school students' names, addresses, and telephone listings. Parents and secondary students have the right to request that the District not provide this information (i.e., not provide the student's name, address, and telephone listing) to military recruiters or institutions of higher education, without their prior written parental consent. The District will comply with any such request.

  (i) has met State qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;

The District shall also make widely available through public means (including by posting in a clear and easily accessible manner on the District's website) information on each State or District assessment, including:

(A) the subject matter assessed;

Section 9 Student Privacy Protection Policy

It is the policy of Leigh Community Schools to develop and implement policies which protect the privacy of students in accordance with applicable laws. The District's policies in this regard include the following:

Right of Parents to Inspect Surveys Funded or Administered by the United States Department of Education or Third Parties: Parents shall have the right to inspect, upon the parent's request, a survey created by and administered by either the United States Department of Education or a third party (a group or person other than the District) before the survey is administered or distributed by the school to the parent's child.

Protection of Student Privacy in Regard to Surveys of Matters Deemed to be Sensitive: The District will require, for any survey of students which contain one or more matters deemed to be sensitive (see section headed "Definition of Surveys of Matters Deemed to be Sensitive"), that suitable arrangements be made to protect student privacy (that is, the name or other identifying information about a particular student). For such surveys, the District will also follow the procedures set forth in the section entitled: "Notification of and Right to Opt-Out of Specific Events."

Right of Parents to Inspect Instructional Materials: Parents have the right to inspect, upon reasonable request, any instructional material used as part of the educational curriculum for their child. Reasonable requests for inspection of instructional materials shall be granted within a reasonable period of time after the request is received. Parents shall not have the right to access academic tests or academic assessments, as such are not within the meaning of the term "instructional materials" for purposes of this policy. The procedures for making and granting a request to inspect instructional materials are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal. The building principal, within five (5) school days, shall consult with the teacher or other educator responsible for the curriculum materials. In the event the request can be accommodated, the building principal shall make the materials available for inspection or review by the parent, at such reasonable times and place as will not interfere with the educator's intended use of the materials. In the event there is a question as to the nature of the curriculum materials requested or as to whether the materials are required to be provided, the building principal shall notify the parent of such concern, and assist the parent with forming a request which can reasonably be accommodated. If the parent does not formulate such a request, and continues to desire certain curriculum materials, the parent shall be asked to make their request to the Superintendent.

Rights of Parents to be Notified of and to Opt-Out of Certain Physical Examinations or Screenings. The general policy and practice of the District is to not administer physical examinations or screenings of students which require advance notice or parental opt-out rights under the applicable federal laws, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or

required by an applicable State law; and (3) surveys administered to students in accordance with the Individuals with Disabilities Education Act. For physical examinations or screenings which do not fit into the applicable exceptions, the District will follow the procedures set forth in the section entitled: "Notification of and Right to Opt-Out of Specific Events."

Protection of Student Privacy in Regard to Personal Information Collected from Students: The general policy and practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. The District will make reasonable arrangements to protect student privacy to the extent possible in the event of any such collection, disclosure, or use of personal information. "Personal information" for purposes of this policy means individually identifiable information about a student including: a student or parent's first and last name, home address, telephone number, and social security number. The term "personal information," for purposes of this policy, does not include information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions. This exception includes the following examples: (i) college or postsecondary education recruitment, or military recruitment; (ii) book clubs, magazines, and programs providing access to low-cost literary products; (iii) curriculum and instructional materials used by elementary schools and secondary schools; (iv) tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about student, or to generate other statistically useful data for the purpose of securing such tests and assessments, and the subsequent analysis and public release of the aggregate date from such tests and assessments; (v) the sale by student of products or services to raise funds for school-related or education-related activities; (vi) student recognition programs.

Parental Access to Instruments used in the Collection of Personal Information: While the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, parents shall have the right to inspect, upon reasonable request, any instrument which may be administered or distributed to a student for such purposes. Reasonable requests for inspection shall be granted within a reasonable period of time after the request is received. The procedures for making and granting such a request are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal and shall identify the specific act and the school staff member or program responsible for the collection, disclosure, or use of personal information from students for the purpose of marketing that information. The building principal, within five (5) school days, shall consult with the school staff member or person responsible for the program which has been reported by the parent to be responsible for the collection, disclosure, or use of personal information from students. In the event such collection, disclosure, or use of personal information is occurring or there is a plan for such to occur, the building principal shall consult with the Superintendent for determination of whether the action shall be allowed to continue. If not, the instrument for the collection of personal information shall not be given to any students. If it is to be allowed, such instrument shall be provided to the requesting parent as soon as such instrument can be reasonably obtained.

Annual Parental Notification of Student Privacy Protection Policy: The District provides parents with reasonable notice of the adoption or continued use of this policy and other policies related to student privacy. Such notice shall be given to parents of students enrolled in the District at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in such policies.

Notification to Parents of Dates of and Right to Opt-Out of Specific Events: The District will directly notify the parents of the affected children, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when any of the following activities are scheduled, or are expected to be scheduled:

The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. (Note: the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information).

Surveys of students involving one or more matters deemed to be sensitive in accordance with the law and this policy; and,

Any non-emergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student or of other students. (Note: the general practice of the District is to not engage in physical examinations or screenings which require advance notice, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions to the advance notice requirement and parental opt-out right: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law, and (3) surveys administered to students in accordance with the Individuals with Disabilities Education Act).

Parents shall be offered an opportunity in advance to opt their child out of participation in any of the above listed activities.

In the case of a student of an appropriate age (that is, a student who has reached the age of 18, or a legally emancipated student), the notice and opt-out right shall belong to the student.

Definition of Surveys of Matters Deemed to be Sensitive: Any survey containing one or more of the following matters shall be deemed to be "sensitive" for purposes of this policy:

1. Political affiliations or beliefs of the student or the student's parent;
2. Mental or psychological problems of the student or the student's parent;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating or demeaning behavior;
5. Critical appraisals of other individuals with whom the student has close family relationships;
6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. Religious practices, affiliations, or beliefs of the students or the student's parent;
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Section 10 Parental Involvement Policies

A. General - Parental/Community Involvement in Schools:

Leigh Community Schools welcomes parental involvement in the education of their children. We recognize that parental involvement increases student success. It is the District's policy to foster and facilitate, to the extent appropriate and in their primary language, parental information about, and involvement in, the education of their children. Policies and regulations are established to protect the emotional, physical and social well-being of all students.

1. Parental involvement is a part of the ongoing and timely planning, review and improvement of district and building programs.
2. Parents are encouraged to support the implementation of district policies and regulations.
3. Parents are encouraged to monitor their student's progress by reviewing quarterly report cards and attending parent-teacher conferences.
4. Textbooks, tests and other curriculum materials used in the district are available for review by parents upon request.
5. Parents are provided access to records of students according to law and school policy.
6. Parents are encouraged to attend courses, assemblies, counseling sessions and other instructional activities with prior approval of the proper teacher or counselor and administrator. Parents' continued attendance at such activities will be based on the students' well-being.
7. Testing occurs in this school district as determined to be appropriate by district staff to assure proper measurement of educational progress and achievement.
8. Parents submitting written requests to have their student excused from testing, classroom instruction and other school experiences will be granted that request when possible and educationally appropriate. Requests should be submitted to the proper teacher or administrator within a reasonable time prior to the testing, classroom instruction or other school experience and should be accompanied by a written explanation for the request. A plan for an acceptable alternative shall be approved by the proper teacher and administrator prior to, or as a part of, the granting of any parent request.
9. Participation in surveys of students occurs in this district when determined appropriate by district staff for educational purposes. Parents will be notified prior to the administration of surveys in accordance with district policy. Timely written parental requests to remove students from such surveys will be granted in accordance with district policy and law. In some cases, parental permission must be given before the survey is administered.
10. Parents are invited to express their concerns, share their ideas and advocate for their children's education with board members, administrators and staff.
11. School district staff and parents will participate in an annual evaluation and revision, if needed, of the content and effectiveness of the parental involvement policy.

B. Title I Parental Involvement Policy:

The District's Title I Parental Involvement Policy is established in compliance with Federal law. The District has a parental involvement policy applicable to parents of all children. The parental involvement policy applicable to parents of all children is not replaced by this Title I Parental

Involvement Policy and shall continue to be applicable to all parents, including parents participating in Title I programs.

It is the policy of the District to implement programs, activities, and procedures for the involvement of parents in Title I programs consistent with the Title I laws. Such programs, activities, and procedures shall be planned and implemented with meaningful consultation with parents of participating children.

Expectations for Parental Involvement: It is the expectation of the District that parents of participating children will have opportunities available for parental involvement in the programs, activities, and procedures of the District's Title I program. The term "parental involvement" means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring–(A) that parents play an integral role in assisting their child's learning; (B) that parents are encouraged to be actively involved in their child's education at school; (C) that parents are full partners in their child's education and are included, as appropriate, in decision making and on advisory committees to assist in the education of their child; and (D) the carrying out of other activities, such as those described in this parental involvement policy. The District intends to meet this expectation through the following activities:

1. Involving parents in the joint development of the District's Title I plan and the processes of school review and school improvement.
2. Providing coordination, technical assistance, and other support necessary to assist participating schools in planning and implementing effective parental involvement activities to improve student academic achievement and school performance.
3. Building the schools' and parents' capacity for strong parental involvement.
4. Coordinating and integrating parental involvement strategies under Title I with parental involvement strategies under other programs.
5. Conducting, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic quality of the schools served under the Title I program, including identifying barriers to greater participation by parents in Title I programs, with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background, and use the findings of such evaluation to design strategies for more effective parental involvement, and to revise, if necessary, the parental involvement policies of the District.
6. Involving parents in the activities of the schools served under Title I.

Policy Involvement: Each school served under the Title I program will:

1. Convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation under the Title I program and to explain the requirements of the Title I program.
2. Offer a flexible number of meetings, such as meetings in the morning or evening. If sufficient funds are provided for this purpose, the District may assist parental involvement in such meetings by offering transportation, child care, or home visits.

3. Involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of Title I programs.
4. Provide parents of participating children: (1) timely information about programs under Title I, (2) a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet; and (3) if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible.
5. If the District operates a school-wide program under Title I and such plan is not satisfactory to the parents of participating children, submit any parental comments on the plan when the school makes the plan available to the District.

Shared Responsibilities for High Student Academic Achievement: As a component of the District's parental involvement policy, each school served under the Title I program will jointly develop with parents for all children served under the Title I program a school-parent compact that outlines how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards. Such compact shall: (1) describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the children served under Title I to meet the State's student academic achievement standards and the ways in which each parent will be responsible for supporting their children's learning, such as monitoring attendance, homework completion, and television watching; volunteering in their child's classroom; and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time; and (2) address the importance of communication between teachers and parents on an ongoing basis through, at a minimum: (i) parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as the compact relates to the individual child's achievement; (ii) frequent reports to parents on their children's progress; and (iii) reasonable access to staff, opportunities to volunteer and participate in their child's class, and observation of classroom activities.

Building Capacity for Involvement: To ensure effective involvement of parents and to support a partnership among the District, parents, and the community to improve student academic achievement, each school participating in the Title I program and the District: (1) shall provide assistance to participating parents, as appropriate, in understanding such topics as the State's academic content standards and State student academic achievement standards, State and local academic assessments, the requirements of Title I and how to monitor a child's progress and work with educators to improve the achievement of their children; (2) shall provide materials and training to help parents work with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parental involvement; (3) shall educate teachers, student service personnel, principals, and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school; (4) shall, to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with Head Start, Reading First, Early Reading First, Even Start, the Home Instruction Programs for Preschool Youngsters, the Parents as Teacher Program, and public preschool and other programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children; (5)

shall ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format, and to the extent practicable, in a language the parents can understand; (6) may involve parents in the development of training for teachers, principals, and other educators to improve the effectiveness of such training; (7) may provide necessary literacy training from funds received under Title I if the District has exhausted all other reasonably available sources of funding for such training; (8) may pay reasonable and necessary expenses associated with parental involvement activities, including transportation and child care costs, to enable parents to participate in school-related meetings and training sessions; (9) may train parents to enhance the involvement of other parents; (10) may arrange school meetings at a variety of times, or conduct in-home conferences between teachers or other educators, who work directly with participating children, with parents who are unable to attend such conferences at school, in order to maximize parental involvement and participation; (11) may adopt and implement model approaches to improving parental involvement; (12) may establish a district-wide parent advisory council to provide advice on all matters related to parental involvement in programs supported under Title I; (13) may develop appropriate roles for community-based organizations and businesses in parent involvement activities; and (14) shall provide such other reasonable support for parental involvement activities under Title I as parents may request.

Accessibility: In carrying out the parental involvement activities for this Title I Parental Involvement policy, the District shall provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Title I in a format and, to the extent practicable, in a language such parents understand.

Use, Distribution, and Updating of this Policy: This Title I Parental Involvement Policy shall be incorporated into the District's Title I plan, shall be distributed to parents of participating children, shall be made available to the local community, and shall be updated periodically to meet the changing needs of the parents and the school.

Section 11 Homeless Students Policy

Homeless children for purposes of this Policy generally include children who lack a fixed, regular, and adequate nighttime residence, as further defined by applicable federal and state law.

No Stigmatization or Segregation of Homeless Students: It is the District's policy and practice to ensure that homeless children are not stigmatized or segregated by the District on the basis of their status as homeless.

Homeless Coordinator: The Homeless Coordinator shall serve as the school liaison for homeless children and youth and shall ensure that: (1) homeless children are identified by school personnel; (2) homeless children enroll in, and have a full and equal opportunity to succeed in, school; (3) homeless children and their families receive educational service for which they are eligible and referrals to health, dental, and mental health services and other appropriate services; (4) the parents or guardians of homeless children are informed of the educational and related opportunities available to their children and provided with meaningful opportunities to participate in the education of their children; (5) public notice of the educational rights of homeless children is disseminated where such children receive services under the federal homeless children laws, such as schools, family shelters, and soup kitchens; (6) enrollment disputes are mediated in accordance with law; and (7) the parents or guardians of

homeless children, and any unaccompanied youth, are fully informed of transportation services available under law. The Homeless Coordinator shall coordinate with State coordinators and community and school personnel responsible for the provisions of education and related services to homeless children. The Homeless Coordinator may designate duties hereunder as the Homeless Coordinator determines to be appropriate.

Enrollment of and Services to Homeless Children: A homeless child shall be enrolled in compliance with law and be provided services comparable to services offered to other students in the school in which the homeless child has been placed. Placement of a homeless child is determined based on the child's "school of origin" and the "best interests" of the child. The "school of origin" means the school that the child attended when permanently housed or the school in which the child was last enrolled. Placement decisions shall be made according to the District's determination of the child's best interests, and shall be at either: (1) the child's school of origin for the duration of the child's homelessness (or, if the child becomes permanently housed during the school year, for the remainder of that school year) or (2) the school of the attendance area where the child is actually living. To the extent feasible, the placement shall be in the school of origin, except when such is contrary to the wishes of the homeless child's parent or legal guardian. If the placement is not in the school of origin or a school requested by the homeless child's parent or legal guardian, the District shall provide a written explanation of the placement decision and a statement of appeal rights to the parent or guardian as provided in Nebraska Rule 19.

If the homeless child is an unaccompanied youth, the Homeless Coordinator shall assist in the placement decision, consider the views of the unaccompanied youth, and provide the unaccompanied youth with notice of the right to appeal. The process to resolve disputes concerning the enrollment or placement of a homeless child or youth is as follows:

1. The district shall provide a written response and explanation of a decision regarding any complaint or dispute of a parent, guardian or other person having legal or actual charge or control of a homeless child or youth within thirty (30) calendar days of the time such complaint or dispute is brought;
2. The enrollment of the homeless child or youth in the school where enrollment is sought during the time such dispute is being considered;
3. And notice of the right to appeal as provided in Nebraska Rule 19.

Any parent, guardian or other person having legal or actual charge or control of a homeless child or youth that is dissatisfied with the decision of a school district after the dispute resolution process may file an appeal with the Commissioner of the Nebraska Department of Education within thirty (30) calendar days of receipt of the decision. Such appeals are informal and shall be submitted to the Commissioner in writing, as outlined in Nebraska Department of Education Rule 19, Section 005.03. The District shall immediately contact the school last attended by the homeless child to obtain relevant academic and other records. If the homeless child needs to obtain immunizations or medical records, the District shall immediately refer the parent or guardian of the homeless child to the Homeless Coordinator, who shall assist in obtaining necessary immunizations or medical records. The District may nonetheless require the parent or guardian of the homeless child to submit contact information.

Transportation will be provided to homeless students, to the extent required by law and comparable to that provided to students who are not homeless, upon request of the parent or guardian of the homeless child, or by the Homeless Coordinator in the case of an

unaccompanied youth, as follows: (1) if the homeless child's school of origin is in the District, and the homeless child continues to live in the District, transportation to and from the school of origin shall be provided by the District; and (2) if the homeless child lives in a school other than the District, but continues to attend the [Name] Public Schools based on it being the school of origin, the new school and [Name] Public Schools shall agree upon a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin and, if they are unable to agree, the responsibility and cost for transportation shall be shared equally.

Section 12 Breakfast and Lunch Programs

The District has agreed to participate in the National School Lunch Program and accepts responsibility for providing free and reduced price meals to eligible children in the schools under its jurisdiction. The District provides the United States Department of Agriculture's required nondiscrimination statement:

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA.

Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.), should contact the Agency (State or local) where they applied for benefits. The school food authority assures the State Department of Education that the school system will uniformly implement the following policy to determine children's eligibility for free and

reduced price meals in all National School Lunch Programs. In fulfilling its responsibilities the school food authority:

1. Agrees to serve meals free to children from families whose income meets eligibility guidelines.
2. Agrees to serve meals at a reduced price to children from families whose income falls between free meal scale and the poverty guidelines.
3. Agrees to provide these benefits to any child whose family's income falls within the criteria in Attachment A after deductions are made for the following special hardship conditions which could not reasonably be anticipated or controlled by the household: Unusually high medical expenses; shelter costs in excess of 30 percent of reported income; special education expenses due to the mental or physical condition of a child; disaster or casualty losses.
4. In addition, agrees to provide these benefits to children from families who are experiencing strikes, layoffs and unemployment which cause the family income to fall within the criteria set forth in federal guidelines.
5. Agrees there will be no physical segregation of, nor any other discrimination against, any child because of his inability to pay the full price of the meal. The names of the children eligible to receive free and reduced price meals shall not be published, posted or announced in any manner and there shall be no overt identification of any such children by use of special tokens or tickets or any other means. Further assurance is given that children eligible for free or reduced price meals shall not be required to: Work for their meals; use a separate lunch room; go through a separate serving line; enter the lunchroom through a separate entrance; eat meals at a different time; or eat a meal different from the one sold to children paying the full price.
6. Agrees in the operation of child nutrition programs, no child shall be discriminated against because of race, sex, color, or national origin.
7. Agrees to establish and use a fair hearing procedure for parental appeals to the school's decisions on applications and for school officials' challenges to the correctness of information contained in an application or to be continued eligibility of any child for free or reduced price meals. During the appeal and hearing the child will continue to receive free or reduced priced meals. A record of all such appeals and challenges and their dispositions shall be retained for three (3) years. Prior to initiating the hearing procedures, the parent or local school official may request a conference to provide an opportunity for the parent and school official to discuss the situation, present information, and obtain an explanation of data submitted in the application and decisions rendered. Such a conference shall not in any way prejudice or diminish the right to a fair hearing. The hearing procedure shall provide the following:
   - A publicly-announced, simple method for making an oral or written request for a hearing.
   - An opportunity to be assisted or represented by an attorney or other person.
   - An opportunity to examine, prior to and during the hearing, the documents and records presented to support the decision under appeal.
   - Reasonable promptness and convenience in scheduling a hearing and adequate notice as to the time and place of the hearing.
   - An opportunity to present oral or documentary evidence and arguments supporting a position without undue interference.

- An opportunity to question or refute any testimony or other evidence and to confront and cross-examine any adverse witnesses.
- The hearing be conducted and the decision made by a hearing official who did not participate in the decision under appeal or in any previous conference.
- The parties concerned and any designated representative thereof be notified in writing of the decision of the hearing official.

8. Agrees to designate the Superintendent to review applications and make determinations of eligibility. This official will use the criteria outlined in this policy to determine which individual children are eligible for free or reduced price meals.

9. Agrees to develop and send to each child's parent or guardian a letter as outlined by State Department of Education including an application form for free or reduced price meals at the beginning of each school year. Applications may be filed at any time during the year. All children from a family will receive the same benefits.

The following information will be available in the office of the Superintendent:

- Parent letter and application
- Public release
- Collection procedure

Section 15 Asthma or Systemic Allergic Reaction

The Leigh Community School District # 39 adopts and implements the emergency response to Life-threatening Asthma or Systemic Allergic Reactions Protocol as contained in Appendix A of Title 92, Nebraska Administrative Code, Chapter 59 effectively October 1, 2003.

The equipment and medication necessary to implement the Emergency Protocol shall be maintained at each attendance center in the Leigh Community School District.
